CIS 678 Machine Learning

Special Topics (part 1)

Outline

Introduction to

- Recurrent Neural Networks (RNNs)
- Transformers
- Generative Modeling
- Foundational Models

Outline

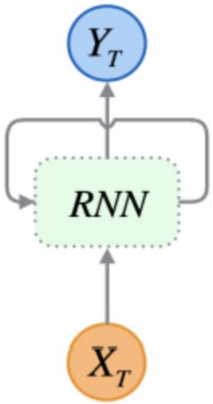
Introduction to

- **Recurrent Neural Networks (RNNs)**
- Transformers
- Generative Modeling
- Foundational Models

Recurrent Neural Networks (RNNs)

Originally designed to Solve:

- Sequential Problems
  - *NLP (MT, ...), Speech Recognition,...*
  - *DNA Sequencing*
- Time-series Problems

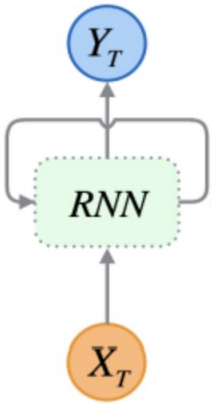


ref

Recurrent Neural Networks (RNNs)

Originally designed to Solve:

- Sequential Problems
  - *NLP (MT, ...), Speech Recognition,...*
  - *DNA Sequencing*
- Time-series Problems

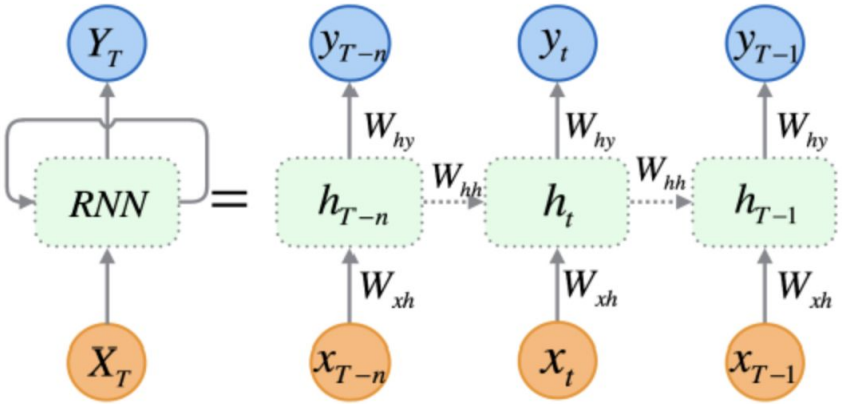


ref

Recurrent Neural Networks

Originally designed to Solve:

- Sequential Problems
  - *NLP (MT, ...), Speech Recognition,...*
  - *DNA Sequencing*
- Time-series Problems

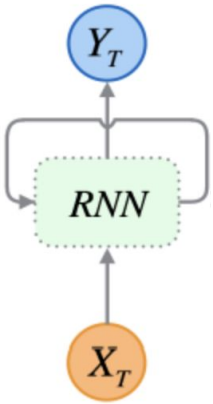


ref

Recurrent Neural Networks (RNNs)

- Time-series Problems

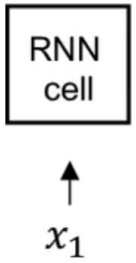
$$f(x_{t+1}, x_{t+2}, \ldots\ldots x_{t+h} | x_t, x_{t-1}, x_{t-2}, \ldots x_1)$$



ref

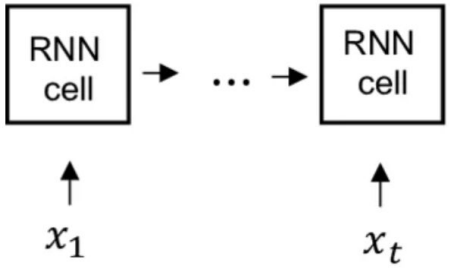
Basic RNN Architecture

$f(x_{t+1}, x_{t+2}, \ldots\ldots x_{t+h} | x_t, x_{t-1}, x_{t-2}, \ldots x_1)$



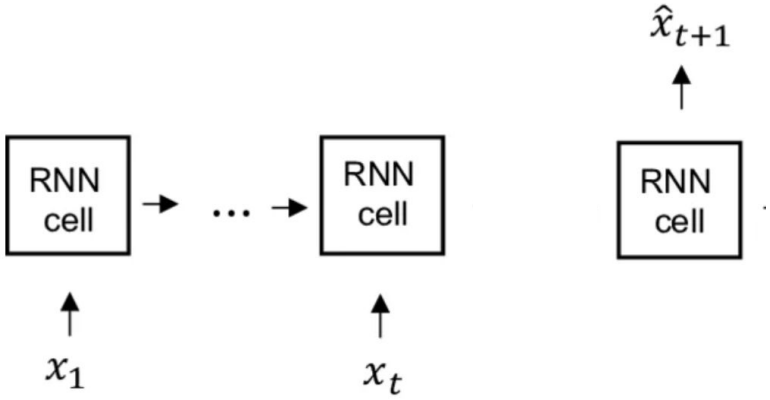
Basic RNN Architecture

$f(x_{t+1}, x_{t+2}, \ldots\ldots x_{t+h} | x_t, x_{t-1}, x_{t-2}, \ldots x_1)$



Basic RNN Architecture

$f(x_{t+1}, x_{t+2}, \ldots\ldots x_{t+h} | x_t, x_{t-1}, x_{t-2}, \ldots x_1)$



Basic RNN Architecture

$f(x_{t+1}, x_{t+2}, \ldots\ldots x_{t+h} | x_t, x_{t-1}, x_{t-2}, \ldots x_1)$
